1901 Harrison Street  
Hollywood, FL 33020

Dear Julie:

It is with great pleasure that I write to you to praise the dedicated work of your firm.

The first project that we worked together was in 2007 when you successfully obtained a variance for the addition to our home with the P&Z Department. You achieved that goal with one complete submission and without the need to hire an attorney saving us considerable funds and time.

Our second project with you commenced in 2008 when we began designing the addition to our home and the remodeling of the existing interior space. We worked with you in a collaborative manner to develop a program and budget to meet the needs of our large extended family. Your design included innovative solutions and the difficult engineering redesign to remove the existing tie beam and replacing it with an upturned beam. The new design includes private and public spaces that allow us to host our many guests with the highest regard for both their comforts and our privacy. The renovation and addition is seamless and the timeless design will serve us for many years to come.

In many renovation projects it is difficult to remain on budget and we thank you for successfully achieving rich architectural details with economy of means. We have received countless compliments from the many friends, family and neighbors who have visited our home since it was complete.

We would welcome the opportunity to work with you at any time. Your attention to dedication and commitment to your work is evident in everything you do and we look forward to the friendship that developed as a result from working together on our home.

Sincerely,

Lori Wittlin
